

MATVIS.

→ Zero Trust for AI

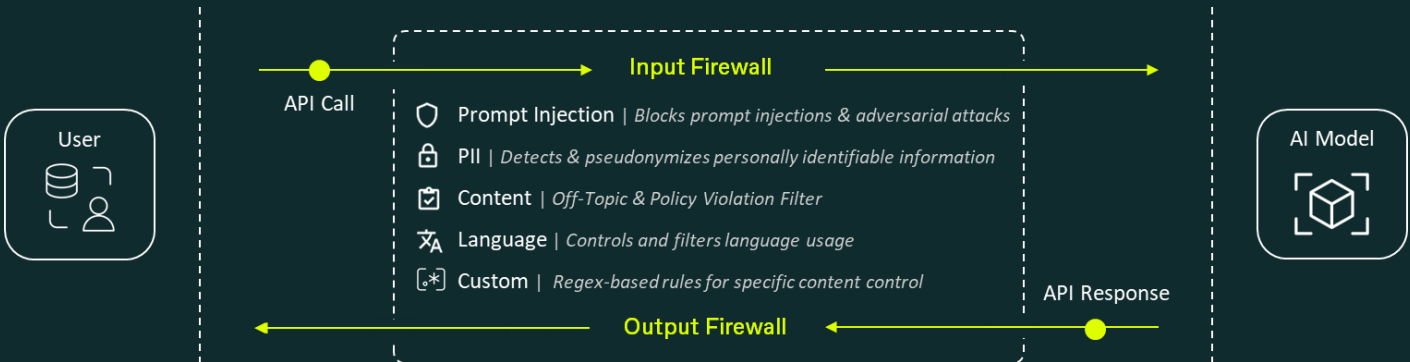

Stop data breaches before they happen.
With our Firewall for AI.

MAXIMUM DATA PROTECTION

Our AI firewall stops sensitive data from leaving your organization. Complete control, zero leaks.

REAL-TIME THREAT DETECTION

All traffic is monitored. AI-Threats are blocked in real time.

DIGITAL SOVEREIGNTY

Full control of your AI and data – completely independent.

100% GDPR,
0% US reliance.

CERTIFIED SECURITY

RUNS EVERYWHERE

Cloud, multi-cloud
or on-prem –
Flexible deployment,
no vendor lock-in.

PLUG & PROTECT

Seamless
integration with
any AI models.

CUSTOMIZABLE PROTECTION

Define your own security policies tailored to your needs.

SIEM & INCIDENT RESPONSE

Seamless SIEM integration strengthens your SOC.

ZERO TRUST PRINCIPLE

Every interaction is verified. Control instead of blind trust.
